

## Educational Confluence

### 3R to 3H: The Next Learning Revolution

Himalayan Institute of Alternatives, Ladakh (HIAL) is conducting the 4<sup>th</sup> edition of its education confluence: **3R to 3H, The Next Learning Revolution** from **May 23<sup>rd</sup> - 29<sup>th</sup>, 2025** in **Phyang, Leh, Ladakh**. It is called a confluence and not a conference because it is a meeting of minds of **world's leading and disruptive educationists** to collectively share, discuss and brainstorm the School and University Education of the future which is “Contextual, Trans-disciplinary & Experiential” in line with NEP 2020.

To be nestled in the surreal scenic beauty of Ladakh at the celebrated SECMOL Alternative school, newly established HIAL campus and several other educational and beautiful locales, the conference will host a stellar community of educators from the length and breadth of the country. Keynotes and coffee table discussions will bring to focus learning by doing, collaborative education, trans-disciplinary learning and holistic and spiritual education in School and Higher Education.

#### About HIAL

HIAL aims to develop Ladakh into a benchmark for a sustainable economic living for the mountain world, where students receive a meaningful education that prepares them for a life of dignity in harmony with nature. It empowers the mountain youth to take charge of their contexts through contextual and experiential learning rooted in grassroot innovation and indigenous knowledge systems.

#### Theme and Scope of the Conference

HIAL promotes a paradigm shift from the 3 R's of Reading, wRiting and aRithmetic to the 3 H's: bright **Head**, kind **Heart** and skilled **Hands** in line with NEP 2020. In order to brainstorm the possibilities of practical implementation of NEP 2020 with experienced educationists from around the world, we are conducting this education confluence.

Based on HIAL's 5 pillars of education of the future, the confluence will be curated around contextual curriculum, experiential pedagogy, trans-disciplinary approach to problem solving, inculcating higher order thinking and deeper order feeling and moving from 3R to 3H to 3A for the future. Over five days, experts will share experiences, exchange ideas, expand networks and find inspiration.

In addition to world-class keynotes, the conference will employ the World Cafe Format where every voice is heard and every thought is respected. Participants will visit scenic locations in Ladakh and SECMOL Alternative School Campus to experience alternative learning in practice.

## Broad Itinerary

Date	Activity	Venue	Accommodation
